Text to Speech Voice Announcement

Voice announcement in 2nd Generation MOTOTRBO radios can audibly convey information to the radio user, when the radio display is not easily accessible. Professionally recorded or user recorded files can be loaded into the radios via CPS

Text to Speech generates the voice announcement using a speech algorithm in the MOTOTRBO subscriber for Channel and Zone names, Button functions, Text Messages and Job Tickets

- 27 languages and country accents:

  Arabic (1), Cantonese (1), English (7), French (2), German (1), Hungarian (1), Italian (1), Japanese (1), Korean (1), Mandarin (1), Polish (1), Portuguese (2), Russian (1), Spanish (4), Swedish (1) and Turkish (1)

- Mutually exclusive with pre-recorded standard voice announcements
- Supported in both Analog and Digital operation
- Custom dictionary for accurate readout of abbreviations and industry specific terminology available in the MOTOTRBO CPS

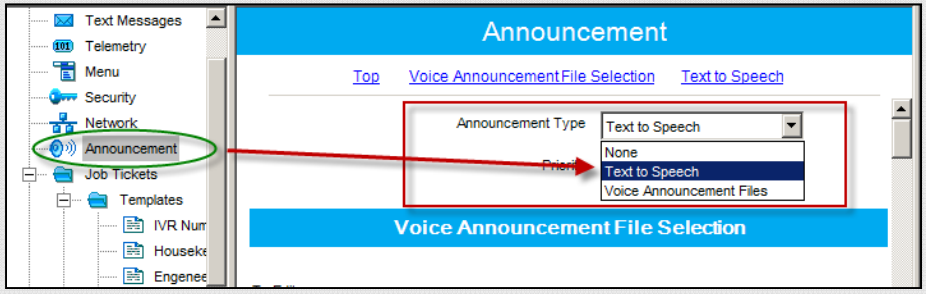
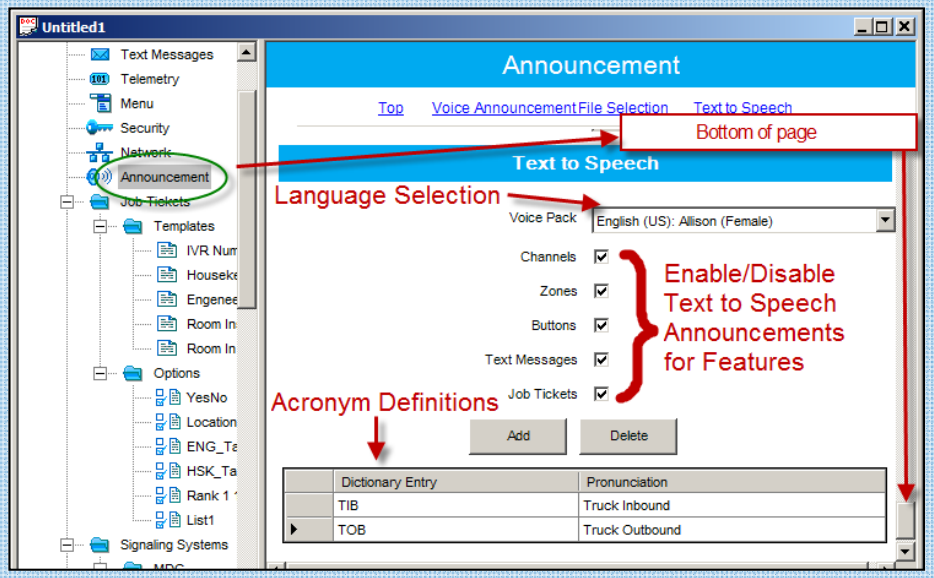
Text to Speech Voice Announcement

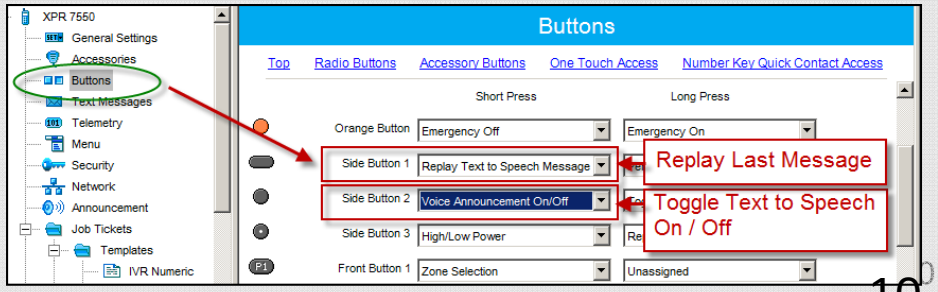
CPS Programming

The Voice Announcement allows for choosing between the pre-recorded voice message or Text to Speech voice generator



At the bottom of the Voice Announcement section are choices for Language, Features and Section to define the pronunciation of common Acronyms





Buttons can be assigned to Replay the last message and turn the Text to Speech ON/OFF
